

**PATENT APPLICATION
DOCKET NO. PRIT01-00001****REMARKS**

Claims 42-45, 47, 48, and 50 are pending in the application.

Objection for New Matter

The amendments herein eliminate all recitations of "data packets", which were objected to by the Examiner for not being supported by the original specification. Therefore, the withdrawal of the objection is respectfully requested.

Obviousness-Type Double Patenting

The Examiner rejected claims 42-50 under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-18 of copending Application No. 11/061,223 to Smith.

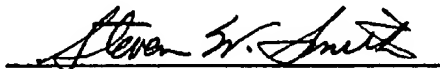

Copending Application No. 11/061,223 is a continuation-in-part of the present application. In a telephone conference with Examiner Stulberger on November 10, 2005, it was agreed that the obviousness-type double patenting rejection was not proper against the present application, which is the parent of the later-filed CIP application. Therefore, the withdrawal of the rejection is respectfully requested.

CONCLUSION

It is thus believed that all pending claims are in condition for allowance. Issuance of a Notice of Allowance is respectfully requested.

Respectfully submitted,

Date: 11-10-2005
